With this a precedent upon which to base a judgment the chance is that he would be found enjoying trip on an ice boat through the Arctic regions or travelling through Japan in a rickshaw while the United States Senate was deliberating on matters of importance to the people of the state and the nation. This is of course based on the impossible hypothesis that Hamlin will ever be elected to the United

Ellen Von Hagen Tells of Her Relations With Raymond Hitchcock—First Witness Called

NEW YORK, March 12.—Ellen Von Hagen, who [illegible] death [illegible] resulted in the indictment of Raymond Hitchcock, this afternoon repeated her story to a jury in court.

The girl, who is now in the care of the Gerry society, told of nights spent at the Hitchcock home at Great Neck, L. I., and of visits to a furnished room house in this city, where the defendant had temporary lodgings. On each of the occasions she was accompanied, she said, by either Flora Whiston or Elsie Voecks. At the time more than a year ago Flora was the witness was 17 and Elsie was 12 years of age.

In his opening address following the filling of the jury box today the prosecutor had charged that Hitchcock had been guilty of misconduct with all three of these children. When her testimony was interrupted by adjournment the Von Hagen girl had sworn confirmation of the state's allegations so far as she was concerned.

BOMBS FOR KING ALFONSO?

BARCELONA, March 12.—Following the departure of King Alfonso from this city a second bomb was found on the quay near the place where the bomb exploded in a water pipe early Wednesday morning. The bomb was exploded in a laboratory van, which was badly damaged, but no one was injured. Two more bombs were found this evening in the house of [illegible].

Republicans Indorse Him at State Convention

OMAHA, Neb., March [illegible].—Without a [illegible] of dissent the candidacy of William H. Taft for President of the United States was indorsed by the Republican state convention of Nebraska today and a solid delegation for the secretary will go to Chicago instructed to vote for his nomination first last and all the time.

It was a Taft convention from start to finish. Despite an effort to divide sentiment and when the question of selecting delegates at large came up for consideration the slated delegation headed by Governor Sheldon, Senator Norris Brown, Victor Rosewater and Judge Allen W. Field of Lincoln—went through with a rush.

BUYS LARGE ORCHARD

REED TO BE AMONG LEADING FRUIT GROWERS.

Has 2,500 Acres in Grand Valley Western Sugar and Land Company Branching Out

Verner Z. Reed of Colorado Springs will soon be the owner and operator of the largest orchard in the United States. Mr. Reed has acquired a tract of 2,500 acres in the far-famed Grand valley near Fruita comprising numerous small orchards which he intends to consolidate into one and supplement by planting thousands of new trees. Immediately adjoining this land is another tract of [illegible] acres a large part of which is also to be set in trees by the Western Sugar & Land company.

The announcement of the extensive enterprise was made yesterday by Mr. Reed and J. L. McKinnie on their return from a visit to the Grand valley where they have been looking after their land interests in company with H. L. Doxie and O. H. Shoup. All are impressed with the opportunities offered for the profitable investment of capital in the fruit lands of the western slope and have manifested their faith in the district by investing their money in it.

No Option on Sugar Factory

Mr. Reed announces that his fruit land project, together with the completion of a large irrigation scheme in northern Wyoming, are the only new enterprises he has undertaken for the present year. Together with Mr. McKinnie he denies the report that he has taken an option on the sugar factory at the Western Sugar and Land company's Grand Junction. This story, he says, the rumor emanated from a joke regarding the size of the plant.

Mr. Reed has just returned from California where he has spent the winter with his family. For the future he expects to make Colorado Springs his headquarters although he will spend a great deal of time out

Couple Arrested in Frisco Use Check Book of Massachusetts Governor—Were Living High

SAN FRANCISCO, March 12.—H. Mortimer Wilson and his beautiful wife, who registered Tuesday at the St. Francis hotel in this city as Mr. and Mrs. George H. Longworth of Denver, were arrested in their apartments this afternoon and are being held for investigation of their effects which include a check perforating machine and personal check book of Governor Guild of Massachusetts. They were taken into custody after it was discovered that Wilson had a certified check for $1,000 drawn on the Shawmutt (Mass.) National bank, and signed Curtis H. Guild. It was learned also that a check for $[illegible], drawn on a Denver bank had been deposited in the Crocker National bank in this city.

Wilson had other check books including those of some of the most prominent men of Massachusetts.

BIG BATTLESHIPS MAKE GOOD TIME AT SEA.

CRUISE PRACTICALLY ENDED

TRIP TO SAN FRANCISCO IS YET TO BE MADE

VESSELS IN HOME WATERS

Target Practice Will Be Started at Once—Season of Hard Work Confronts Jackies Before They Can Enjoy Entertainments Along the Coast

SAN DIEGO, Cal., March 12.—When the American battleship fleet under command of Rear Admiral Robley D. Evans steamed today into Magdalena bay passing through the Cabos gateway marked by Bull Rock on the north and Redondo Point on the south and dropped anchor behind the high promontories of mountory which stretches protecting arm down from the mainland and makes Man o' War Cove the most ideal harbor of the Lower Pacific coast the historic cruising naval cruise of more than 14,000 miles beginning at Hampton Roads less than three months ago practically came to an end.

Magdalena is the present naval base of the Pacific for American target work and battle practice drills and the right of temporary ownership through government lease the vessels if not the men of the fleet may feel that they are again in home waters. There yet remains the trip from Magdalena bay to San Francisco, the destination originally announced, a matter of some 1,100 miles, but it will not be begun until target practice is concluded and fleet drills are [illegible].

Tour of Holiday Making

The last stage of the journey will be a tour of holiday making with stops at San Diego, Los Angeles, Santa Barbara and Santa Cruz where reception committees are planning all manner of entertainments for officers and men, the latter especially coming in for the greatest amount of attention. The sailors will find themselves before every one in the eyes of their western admirers and receptions will be offset with features ranging from gala balls in the management of the exclusive social set to prize fights.

The California committees announce that the uniforms of men instead of being a bar to all places will on the contrary be a mark for hospitality along the coast.

Serious Work to Be Done

There is serious work to be done at Magdalena however before the sailors thoughts can turn to the happy land of home coming. Large ranges are to be established off the coast of Lower California at once according to the wireless dispatches from Admiral Evans and the divisions of the fleet will be sent out with big guns booming as soon as they are ready. Long before the fleet passed through the Straits of Magellan the gunnery officers of the battleships turned cartridges and lessons of the various guns were rusty. With the details of the coming practice and in the run from Callao to Magdalena bay the commander of the fleet made the final arrangements.

Two target practices are held each year in the navy. The spring practice which has been completed by practically all of the vessels of the Pacific fleet and which is about to be undertaken by the fleet from the Atlantic is known as the record practice, as the result of which four trophies annually are awarded.

SUBMARINE BOAT INQUIRY IS ON IN EARNEST.

CHARGES OUTLINED IN DETAIL

TYPEWRITTEN STATEMENT IS PRESENTED BY LILLEY

HOBSON SPRINGS SENSATION

Representative From Alabama's Claims Boat Company Claim to Have Influence With Speaker Cannon—Electric Boat Concern Without A [illegible]

WASHINGTON, March 12.—The Lilley submarine boat inquiry was begun in earnest today by a special House committee. Beginning at 10 o'clock, the committee continued its work during the greater part of the day. Representative Lilley (Conn.) was heard at length. He began his testimony by reading a long typewritten statement a part of which was in the nature of an affidavit in which he outlined his charges in detail. When he had completed this formal presentation he was questioned at length by Representative Olmstead of the committee who was designated by Chairman Boutelle to perform that service.

During the afternoon session Representative Richmond P. Hobson (Ala.) testified that he had been approached by a man representing the Electric Boat company who told him that if he would support the claims of that company before Congress the company could bring influence to bear upon Speaker Cannon to have him (Hobson) appointed on the committee on naval affairs.

Attorneys Named

At the suggestion of Chairman Boutelle the names of the attorneys representing interested parties were entered on the naval record. Mr. Lilley introduced Frank T. Brown of Norwich and State Senator Stiles Judson of Bridgeport, Conn., as his counsel. Martin W. Littleton of New York announced that John D. Lindsay, also of New York, and himself represented the [illegible] of [illegible].

In reply to one of Mr. Olmstead's questions Mr. Lilley said the Electric Boat company had no plant and no assets. He declared that that company did not build boats its only business being to secure contracts for boats and then sublet the contracts. Mr. Lilley gave the names of the Connecticut manufacturers and the attorney who had asked him according to his statement to vote for an appropriation for submarine boat legislation. The manufacturers he said, were Franklin H. Taylor of Waterbury and A. M. Ferris of the Bridgeport Brass company; the attorney was John T. Kellogg of Waterbury.

In League With English Concern.

Mr. Lilley said it was his understanding that there was an agreement between the Electric Boat company and Vickers Sons & Maxim of England who are building English submarine boats whereby all the improvements made by the Electric Boat company are turned over to the English concern but under which all of the improvements made by Vickers Sons & Maxim are not given to the Electric company.

A discussion arose between Mr. Olmsted and Mr. Lilley over that portion of Mr. Lilley's statement relating to newspaper correspondents and the part they have taken in creating what Mr. Lilley termed a sentiment for submarines, particularly on the Pacific coast.

"While I have no direct testimony to offer on that subject," he said, "I am told that they (the Electric Boat company) have men who attend meetings of the boards of trade, chambers

Speaker Cannon Indorses Brooks

Speaker's Room, House of Representatives, Washington, D. C., March 5, 1908.

Dear Sir:—I have your letter of February 28 and am glad to hear from you. Replying to your question regarding the esteem in which the Hon. Franklin E. Brooks of your state was held while here, I can say that he was one of the most efficient members of the House of Representatives during his term of service. It was also a matter of sincere regret, on the part of his colleagues, that Mr. Brooks retired from public life.

I am, as ever, with respect, [illegible]

Yours truly,

JOSEPH G. CANNON.

States Senate, and on the further assumption that he might tire of the club and social life in Washington and desire a change.

As to Neglecting Duties.

The boomerang has struck back.

One of the favorite war cries of the Hamlin crowd has been that certain state officials have been neglecting their official duties at the state capital to support Mr. Brooks' candidacy. By what ingenuous imaginative argument they can justify themselves for spending hours every day in working for Hamlin while their own duties as officers of the county are being neglected, is not explained.

Why have the offices of the county clerk, of the county assessor and of the sheriff not to mention others, presented such a desolate appearance during the last few days? J. H. Schiller, F. F. Schreiber, A. M. Hill and several others are more frequently found buzzing around the Hamlin headquarters than they are at their work in the court house, where they belong. All of which shows that the first suggestion of neglect of duty that the Hamlin forces must have obtained came from home territory, but not from an oversensitive conscience.

And in the meantime, the primaries are to be held next Wednesday and at that time the Republican voters of El Paso county will show their emphatic disapproval of such methods as have been adopted by the aspiring district attorney in his ill-advised attempt to land himself in the United States senatorship.

What Franklin E. Brooks stands for is what the Republican voters stand for and that is clean politics and the election of efficient public servants. That is why he will get an overwhelming indorsement at the primaries.

make the best scores at the targets. At the full practice the prize money is the one reward held out. There are fleet awards of money, class awards for the best ships in an individual class, and best ship awards, so that some money is available for all good work, even if it be not the best in fleet or class.

The four trophies are bronze plaques, which are carried by the winning ships in four different classes until other ships wrest them away at the annual practice. The trophies were provided by order of President Roosevelt and are highly prized by the winning crews.

The four classes are: Battleships, cruisers, gunboats and torpedo boat destroyers. In the battleship class are included the state-named armored cruisers of the West Virginia and Maryland type, of which there are now eight in commission in the Pacific fleet. The battleship trophy is at present in possession of the Illinois of the Atlantic fleet, one of the four of Admiral Evans' fleet, which still carry 13-inch guns in their main batteries as against the high calibered 12-inch rifles of the modern ships. The Maryland has just made a record of 78.8 per cent of hits at the targets, and the naval enthusiasts along the coast already are proclaiming her the winner of the trophy in advance of the work of any of the ships of the big battle fleet.

Albany Gets Cruiser Trophy.

The cruiser trophy is now in possession of the crew of the protected cruiser Albany, which is in San Diego harbor and has just returned from Magdalena with what is believed to be a world's record for rapid and accurate fire. The trophy was won last year by the Albany's crew while on the Boston, which is now out of commission. There seems little doubt that the Albany will retain the trophy and the crew already is celebrating the victory.

The gunboat trophy is possessed by the Princeton, and the destroyer by the Preble. On each of the trophy plaques when bear designs of naval vessels in heavy seas or gun crews in action, is the inscription: "Trophy for excellence in naval gunnery. Presented by the direction of the President of the United States to the vessel making the highest score in record target practice."

Each year the name of the winning ship is engraved on the trophy.

Congratulatory Message.

WASHINGTON, March 12.—The following telegram was sent to Admiral Evans today:

"The Navy League of the United States greets the commanders, officers and men of the splendid fleet, which has vindicated the judgment of the friends of the navy by its successful voyage, evincing readiness, efficiency and discipline and assuring national protection and continued peace, and extends to them its congratulations and pledges them its continued friendship and support.

FAVORS CENTRAL BANK

SENATOR LODGE STRONGLY INDORSES ALDRICH BILL.

Postoffice Appropriation Bill Has Rough Sailing in House.—Railroads to Be "Shorted."

WASHINGTON, March 12. Senator Lodge of Massachusetts today strongly indorsed the pending currency bill in the Senate and declared that it would be serviceable as an emergency measure and would not prevent the enactment of a general currency law, which he declared he had hoped to see realized in the future on the basis of a central bank.

Senator Paynter of Kentucky opposed the currency bill in a short speech and especially condemned the proposition to secure bank deposits.

Referring to Senator Dubois's recent remarks about "night riders" and barn burning in Kentucky, both Senators Paynter and McCreary of that state condemned such lawlessness and denounced the tobacco trust.

The bill to require American supplies for the Panama canal to be carried in American bottoms was again considered today, but not acted upon and at 4:15 p. m. the Senate adjourned.

WASHINGTON, March 12.—The postoffice appropriation bill had rough sailing in the House of Representatives today. Its progress was halted at every turn by amendments upon which there was lengthy discussion. The attacks were begun on the section relating to the postmaster tube service which was forced to undergo a change so that extensions of such service should not be confined to the several cities named in the bill but that they should be made wherever the postmaster general may think best.

The House was a unit for withholding a portion of the pay to railroads for transportation of mails until a correct system of weighing should be established, a provision to that effect being incorporated in the measure. Finally a vigorous, but ineffectual fight was made on the appropriation bill by Mr. Goebel of Ohio, to increase by $2,000,000 the appropriation for paying the expenses of railway mail clerks while traveling on business of the department. The amendment was strongly advocated by Mr. Murdock of Kansas.

Still other amendments were in sight when the bill was laid aside for the day, and the House at 5:05 p. m. adjourned. Five of the 29 pages of the bill remain to be considered.

WASHINGTON, March 12.—In an automobile accident in that part of Rock Creek park known as the Horseshoe curve, Mrs. Elmer Dover, wife of the secretary of the Republican national committee, her daughter, Mary Elizabeth, aged 8 years, were injured. Mrs. Dover sustained a sprained ankle, lacerated face and head, while her daughter was badly bruised about the body.

of commerce, etc., and who get up in their meetings and make addresses on the unpreparedness of the Pacific coast and the fear that the Japanese will be over on the next boat and thus get resolutions passed instructing their congressmen to vote for a large number of submarines as the best means of protecting them from invasion.

Reprehensible Conduct.

"I think it reprehensible conduct on the part of the company to hire lawyers and newspaper men to go about the country and create war scares and work through boards of trade and chambers of commerce to bring pressure to bear on members of the House to vote the government's money for boats."

Mr. Lilley said he could name two newspaper men at this time who had worked for the company.

Mr. Lilley insisted that if the committee would call the witnesses, whose names he had given, it would ascertain that there were a great many such men employed and that a great deal of money has been spent that way.

"The air is full of it," he said.

During his examination, Mr. Lilley mentioned the fact that he had consulted with former Senator Thurston of this city, who is the attorney here for the Lake Submarine Boat company, but insisted that that gentleman had not formulated his (Lilley's) charges.

Had Influence With Cannon.

Congressman Hobson testified to Lawrence Speer of New York, telling him last November that the Electric Boat company would be able to help Hobson to get a place on the naval committee if he "stood right on submarines," that it had influence with Speaker Cannon.

Mr. Hobson said: "I told Mr. Speer that I did not want the influence that his company had and I made no promise to support any naval proposition he might have to offer."

Mr. Hobson said that he had seen Mr. Speer since this conversation occurred and in reply to a question propounded by Mr. Littleton, said that he and Mr. Speer had been classmates at Annapolis, and that they had belonged to the same corps in the navy. Their relations had been cordial.

Mr. Lilley was recalled. He was questioned by Mr. Olmsted regarding the statement he made to the committee that he was being shadowed by detectives and was asked if they were hampering him in his work before the committee.

"I have had a very large number of men shadowing me since the resolution was introduced," said Mr. Lilley. "One man has been standing near my door in this office building and two more usually at the entrances. Frequently I have run into them here. In the hotel there have been not less than three, so the hotel detective tells me. The detective stationed at the House of Representatives says there have been at least six in there. I did not protest against this proceeding until they began to shadow the members of my family, and Major Sylvester, the prelate of police here, told me he would have them arrested if I so desired."

The committee adjourned until 10 o'clock Monday morning.

OSKALOOSA, Ia., March 12.—Republicans of the Sixth Congressional district today elected John F. Lacey and Milton McCord delegates to the national convention. Resolutions indorsing President Roosevelt's policies, Secretary Taft for President and Senator Allison for re-election were adopted.

of the city on matters pertaining to the many enterprises he has on hand. With Mr. McKinnie, he left last night for Garden City, Kan., where they will inspect the sugar factory and lands of the United States Sugar and Land company. Following this, he intends going to Wyoming to look after the big project under construction there for the reclamation of 80,000 acres of land.

Enthusiastic About Colorado.

Mr. Reed is enthusiastic about Colorado as a field for investment, and declares that it was not affected in the least by the recent financial stringency.

"The Grand valley is one of the richest regions in the world, and its possibilities for future development are enormous," he said yesterday. "It is making steady and rapid strides. The values of fruit lands there are almost unbelievable. While in California this winter, I took occasion to investigate the returns from the year's crops, and I find that, with the single exception of the Yakima district in Washington, the returns per acre of Grand valley fruit lands are twice those of any other fruit-bearing land in the United States.

Season's Prospects Bright.

"There is every indication that the present season will be a record breaker. Weather conditions thus far have been favorable to the production of a fine, big crop, and the old-time fruit growers of the valley say that there is every indication of an unexcelled season.

"Grand Junction is making steady progress. Within the last few years it has changed wonderfully. It is growing at a rate proportionate to that of the adjacent valley, which means [illegible] in all [illegible]. We have been successful in every venture in this valley, and have never declined to go into a legitimate enterprise there but that we afterward regretted it.

Many New Enterprises.

"New enterprises are finding a start in the valley. An expert from Normandy, France, where the world's finest cider is made, has been experimenting for the last two years and declares that cider in every respect as fine as that of France can be made in the Grand valley. He is now taking steps for the establishment of the industry there. Plans are also on foot for the construction of an interurban line connecting the principal points in the valley.

"While in the west, I took occasion to visit several mining camps. My visits served to impress upon me that Cripple Creek is the world's greatest gold camp. When you come to making a division, you must make two classes, putting Cripple Creek alone in the first."

SEARCH FOR SHIP'S TREASURE

Wreck of the Clara Nevada, Which Sunk With 65 Passengers Aboard, Located at Aldridge Rock.

SEATTLE, Wash., March 12.—A special cable to the Times from Juneau, Alaska, says James Currie, keeper of the lighthouse at Aldridge Rock, brings news of the finding of the wreck of the Clara Nevada, which was lost in 1887, with 65 passengers on board. The purser was the only one ever found.

The terrific winds of the last few days exposed the remains of the craft to view.

Many human bones have been picked up on the beach in the vicinity.

The Nevada is believed to have had a large amount of gold dust on board as several Klondykers were on their way out with their first clean up. Parties here are preparing to search

TO ENFORCE STATE LAW

All Drug Stores Here Must Employ a Registered Pharmacist.

Several Colorado Springs druggists are not complying with the law and have been served with notice by Dr. S. L. Bresler, secretary of the state board of pharmacy, to remedy conditions in accordance with the new law which went into effect last July. Dr. Bresler has been in the city for the last two days to investigate local conditions.

"The law requires that every drug store be under the management of a registered pharmacist," he said. "I find that this has not been enforced in several cases but have been given assurance that it will be, and before I leave, hope to find things in a satisfactory condition."

INSPECTING PUBLIC SCHOOLS

Methods of Protection Against Fire Under Investigation.

Investigation of the methods of protection against fire in the public school buildings of Colorado Springs was started yesterday by an inspection of the means of exit in several of the buildings. The committee, comprising Van E. Rouse and E. W. Stephens of the board of education, City Superintendent John Dietrich and City Engineer R. H. Ashworth, will today begin a more thorough investigation by inspecting the heating plants, fire escapes, exits and efficiency of the fire drill. Teachers are to be instructed to keep outer doors unlocked during school hours. The board of education will hold a special meeting later to receive the report of the committee.

TOMORROW IS THE LAST DAY

YOU CAN GET FREE TREATMENT FROM

THE NEW YORK DOCTORS

All of this week the New York Doctors have been giving Free Treatments. That is to all who consulted them for treatment of any chronic disease they would contract to treat them free for three months (medicine excepted). THEIR FREE TREATMEN OFFER CLOSES SATURDAY NIGHT. Also your examination will cost you nothing.

The New York Doctors are Specialists in Chronic Diseases of men, women and children. They are a standard institution, having been located here for five years and expect to stay here for a good many years more, as it has cost several thousands of dollars to establish such an institution and to equip it completely. The New York Doctors' offices are the most completely equipped in this vicinity, being composed of many expensive electrical and mechanical appliances. Drugs of the three schools of medicines are used by these doctors and furnished to each patient from their offices, so that the patient is not out extra money to buy his medicines from the drug store. However, these doctors depend more upon their office treatment for their cures than upon drugs. The best advice we can give you is to go and see for yourself. Consultation will cost you nothing, and after consulting them and learning how they would treat your case, if you are not satisfied that they are the doctors you want, you are under no obligations and do not have to take treatment unless you wish to.

Of the more common diseases which come under the care of the New York Doctors, consumption is probably in the lead. This disease is treated by the Improved French Transfusion Method. Stomach troubles are a close second, with nervous diseases or diseases peculiar to women, next. It is seldom necessary to operate or use the knife at all in diseases of women. Goiters, tumors and other growths are removed often without taking very much medicine internally. St. Vitus dance and other diseases of children, especially nose and throat affections, are cases which need special attention, and these doctors are thoroughly equipped and competent to treat them to a successful termination. Liver, bowel and kidney troubles are quite common, and these doctors have cured a great many people suffering from these diseases.

Their offices are 308 Colorado Building, and their hours are from 9 a. m. to 6 p. m.

Section Four of the First Christian church which was to have met this afternoon at the home of Mrs. Dick, 214 South Nevada avenue, has postponed its meeting for a week.

A meeting of the St. Paul Brotherhood of the First M. E. church will be held this evening at the church. A supper will be given in the church parlors for the members at 6:15 o'clock. The Rev. J. C. Wiley and John Lennox will address the meeting. All members are urged to attend as special matters are to come up.

The Ladies' Missionary tea of the Second Presbyterian church will hold its regular meeting this afternoon at the home of Mrs. Charles Brown, 1314 Colorado avenue. A full attendance is desired.

The Sunshine club of the All Souls' church held its regular meeting in the church parlors last night. Professor Henry F. Perry of the Colorado College School of Music and the Sunshine orchestra gave a good musical program. One of the largest audiences of the season was present.

A gold medal contest for the Demorest W. C. T. U. prize will be held this evening in the Presbyterian chapel at Ivywild. Miss Lucy Broad of London, England, a delegate from the British Woman's Temperance union, will be present and speak on "Life in Korea and Japan." The lecture will be illustrated by costumes and curios from the countries mentioned.

BOY CHARGED WITH THEFT

May Have to Go Back to the State Reform School.

Clarence Massey, colored, 15 years of age, was arrested by Constable W. P. Larrabee yesterday and lodged in the county jail on the charge of stealing a bicycle and saddle from the premises of the City Baggage Delivery, owned by F. P. Bryant. The wheel is the property of Donald Brown and was used by Massey in carrying away the saddle.

The accused boy is out on parole from the state reformatory, to which he was sentenced from this city about two years ago for theft. In default of bail he was sent to the county jail and will be given a hearing in the court of Justice W. N. Ruby this morning. The complaints against Massey are grand larceny and burglary.

PRATT INTERESTED—Articles of incorporation have been filed in the office of the county clerk at Trinidad for the Santiago Coal company, capitalized at $50,000, and incorporated by R. B. Pratt of Colorado Springs, R. F. Sharp of Denver and C. J. Churchill of Pueblo. The company owns a large tract of coal land in San Francisco canon, 15 miles southeast of Trinidad.

Mrs. Mary E. Robinson of Chancton, W. Va., who is past sixty-four years of age, says: "Last winter I took one of the worst colds I ever had in my life. I was so hoarse I could not speak above a whisper and thought I was going into pneumonia. I got a bottle of Chamberlain's Cough Remedy and it just broke it up. I could talk and was late better. I do not take far the one bottle but it saved me. I tell everybody this is enough medicine." For sale by all druggists.

PUPILS GIVE LAST RECITAL

Large Audience Hears Excellent Program at Perkins Hall.

The pupils of Mrs. George M. Perry gave their last recital at Perkins hall last evening before a large audience which filled the hall to the doors. Mrs. Perry has closed her studios in this city and will leave next week for New York city, where she will continue her vocal studies under the direction of Oscar Saenger, the well known teacher.

Mrs. Perry and her pupils were assisted by Miss Clyde Templeton and Miss Josephine Gunnison, pianists, and Mrs. C. C. Hamlin, soprano. The program was opened by [illegible] Valdik, by Miss Mabel Hill and Mr. E. Hill, after which followed numbers by the following pupils: The Misses Effie Jones, Anschau, McCabe, Blair, Tank, Morris, Edwards, Lockridge, Hampton and Ramsey, and Mr. Hamlin. Mrs. Hamlin and Mrs. Perry sang a duet, "Passage Bird's Farewell," by Hiadach, and the Misses Hurtizky and Anschau played Mendelssohn's "A Major Goodnight." Miss Clyde Templeton contributed two piano solos, "Chansonette" by Schuett, and "Arabesque" by Leschetizky. The evening's recital was most successful and pleased the audience.

TURN YOUR FACE INTO DOLLARS

Many a Man Has Failed Because His Face Was a Picture of Calamity.

It takes sunshine to produce a rose, a perfect rose. And so man to be successful, must have sunshine inside. The life which has it not, which has no health and no happiness, is sour, surly, pessimistic, and a failure. The world already has too many vinegar faces that breathe ill-will and strife. The world wants joy, comfort, sunshine, and will cling to the man who has it, who radiates gladness and triumph wherever he is and under all circumstances.

Some people have a genius for seeking out the disagreeable, the crooked, the bad and the ugly. These are the destroyers; they travel in schools, they herd together for they love their kind and the cheerful part of the world will have nothing to do with them.

And why is it that so many peddle disaster knowing at the same time that if they do, their lives will be ruined? Some people cannot help it, for pessimism usually comes from bodily disorders, and this can not always be prevented. The stomach, for instance, is the most common cause of discontent, sour face, recklessness, disgust and lack of ambition. A bad stomach—there is the secret of many a failure. Anyone can have a good stomach, a strong stomach, a stomach that can take care of anything and everything that is put into it, no matter whether it is a very bad stomach now or not. Then why not have it?

Stuart's Dyspepsia Tablets do this very thing. One ingredient of these little tablets digests 3,000 grains of food, and no matter how bad is your dyspepsia or indigestion, these tablets will digest everything in your stomach, thoroughly and completely, and better and quicker than a healthy stomach can do the same thing. Stuart's Dyspepsia Tablets will cure quickly loss of appetite, brain irritability, burning sensations, nausea, heartburn, eructations, loss of vim and spirit, bad memory, and dyspepsia and indigestion in their very worst forms.

No other little tablets in the world can do so much. You should carry Stuart's Dyspepsia Tablets around with you wherever you go and take them after meals. Then only will you realize what it is to enjoy a meal, and what perfect digestion means. Your whole body and your mind will feel the effects; your vim will increase, you will be more satisfied with what the world does, you will think happier and be happier and your face will be one of supreme contentment. That will bring you success and then more success. Your face will bring you dollars. Try it. It will cost you just 50c for a package of these wonderful Stuart's Dyspepsia Tablets, at any drug store on earth.

Send us your name and address today and we will at once send you by mail a sample package free. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

JOHNSTON WILL BE CALLED

And Probably Will Accept Pastorate of Presbyterian Church

The Rev. Howard Agnew Johnston, who recently delivered several sermons in this city, is probably to be called to the pastorate of the First Presbyterian church. The committee in charge is securing a successor to the Rev. F. W. Work, who resigned last July, will make its report at a meeting of the congregation next Wednesday evening, and it is understood that a formal call to Dr. Johnston will be issued.

DR. HOWARD AGNEW JOHNSTON

Dr. Johnston was formerly a pastor of the Forty-first Street Presbyterian church in Chicago and later of the Madison Avenue Presbyterian church in New York city. For a year and a half he called the orient under appointment of the commission of the Presbyterian general assembly, and for the last year has been visiting churches throughout the country telling of the progress of missionary work in the far east.

We hereby extend our heartfelt thanks to our friends for the kind sympathy shown us in our bereavement, also for the beautiful floral tributes from Leaders, A. R. W. K. and Hose company No. 2.

Y. M. C. A. DENIES CHARGES

Will Play Sechrist Against Denver in Basketball Game Tomorrow Night.

Despite protests that have been made by the Denver Y. M. C. A., the local basketball team will play Ray T. Sechrist tomorrow night and on the Denver court. The game here Friday will be in charge today by [illegible] of the Denver team.

The Denver team claims Sechrist is a professional, having been employed about a year ago for a month as physical director of the North Denver Y. M. C. A. boys club. Sechrist claims that he received pay for his services in order to preserve his amateur standing. The local Y. M. C. A. officers believe that he is an amateur and claim that this is an attempt on the part of the Denver players simply to rob the hands of a star player.

The lineup for the game tomorrow night, beginning at 8 o'clock, is as follows: Colorado Springs—George A. St. John, Ray T. Sechrist, guards; H. Schmidt, center; H. Steninger and L. D. Reeks, forwards. Denver—H. Sinton and R. Shanholtzer, substitutes.

Denver—McGraw and Smith, guards; Gebhart, center; McGraw and Warnick, forwards.

THREE BALL GAMES TOMORROW

College Plays Cutler and Terrors Meet South End—Merriell Assistant Tiger Baseball Manager.

Tomorrow will be a busy day in baseball circles. Two games are scheduled for the afternoon and one for the morning. At 2 o'clock, Colorado College will meet Cutler Academy on Washburn field, while at 2:30 o'clock, on the High School field, the South End nine will play the High School. In the morning at 10 o'clock, on Washburn field, the freshmen and sophomores of Colorado College will play.

The College-Cutler game will be a hot scrap. The two teams have met frequently in practice, and thus far have shown themselves to be evenly matched. Cutler has an exceptionally good team this spring, and will give Captain Schmid's nine a close fight.

The High School-South End game promises to be interesting, as the South End nine is playing a good game. The Terrors, according to Captain Murphy, are improving right along, and will put up a strong fight throughout the interscholastic race.

The freshman-sophomore game, in the morning, will be more in the form of a good-natured class scrap than in the line of a fast game of baseball. Considerable rivalry between the two classes will add zest to the game.

Frank Merriell has been elected assistant manager of the Colorado College baseball team. Merriell, who is a graduate of Cutler Academy, played on the Academy team. His business ability makes him an excellent choice for the position as assistant to manager C. W. Smith. Merriell is a member of the Kappa Sigma fraternity.

PAINTER WILL ARRIVE TODAY

Former College Track Star Will Assist in Coaching Tigers for Spring Work.

Earl V. Painter, former all-round Colorado College track star, captain of the team for two years, and holder of several records, will return to Colorado Springs today from Nashville, Tenn., where he has been for the last year, to spend several weeks here. While in this city he will assist in coaching the Colorado College track team and will do some special work in getting the men in shape for a hard spring campaign. Painter has been physical director at the Nashville Y. M. C. A.

Painter will address the meeting of the College Y. M. C. A. this evening.

ALIA MUST HANG JURY DECLARES

(Continued from Page One.)

John Chilcs made the opening address for the state. He asked the jury to find a verdict of murder in the first degree.

He reviewed the testimony to show that the murder was wilfully malicious and premeditated.

Robert H. Widdicombe, attorney for the defendant, dwelt on the fact that the state presented the evidence of experts to show that the defendant was sane when the law itself presumed him to be insane. Alia's act being one to indicate to the district attorney that the defendant was crazy. He claimed that the experts had not sufficient time, without corroborative testimony, to determine the mental condition of this man.

Widdicombe Argues.

FRIDAY MARCH 13 1908

AN ANSWER WOULD BE APPRECIATED.

YESTERDAY we asked Mr Hamlin's newspaper a few questions in regard to Mr Hamlin's candidacy but somehow it failed to answer them. We repeat them for the sake of emphasis.

If it is wrong for Mr. Platt or Mr Rittenhouse or other state office-holder to have their posts for a few days to work for their friend Mr Brooks is it not equally wrong for Mr Joseph Schisler County Clerk of El Paso County Mr A M Hill his deputy and Mr J A Schreiber assessor of El Paso County to neglect their work for weeks at a time in order to work for Mr Hamlin?

What has The Telegraph to say about Mr Hamlin's neglect of his own duties. The people elected him District Attorney to attend to the business of the District Attorney's office—not to farm it out to a lot of deputies and assistants. Yet it is a notorious fact that Mr Hamlin has neglected his official duties from the beginning of his term some three years ago until quite recently when he decided it might be a good thing to make a pretense of strict adherence to duty in order to further his political fortunes.

[illegible]

Did he contract to be District Attorney for the state at large and northern [illegible] and neglect his duties in order to devote his time to his office in Colorado Springs and his job as public prosecutor?

What are the people of El Paso County getting in return for the salaries they are paying county office holders who are [illegible] time campaigning for Mr Hamlin?

It would be [illegible] rich man stop [illegible] these questions.

DOES HE ACT THE PART?

THE meeting of the Republican Central Committee last Monday was a publicity opportunity to learn something of the character Mr Hamlin. In making Mr Brooks' bile letters and resolutions [illegible] ballot for the primaries in order that the friends of both candidates could vote as they pleased without the choice being in any way biased around the polls. It was distinctly assistant setting disputes in respect to voting should [illegible]

This was a sensible idea and fair to both sides. Nobody could object to it. It was fair and square. It was something like the Australian system of voting. It was [illegible] which has become [illegible] But Mr Hamlin objected vigorously [illegible] was an authority [illegible] demand that it be adopted. He was forced to accept it and appoint a committee which he knew would be satisfied.

Then Mr Hamlin insisted that this was a Democrat shall be allowed to vote at Republican primaries be left out at the suggestion of the national call authorizing Democrats who agreed to adhere to Republican rules. The state rules declare emphatically that Democrats shall vote at Republican primaries for Mr Hamlin and his supporters might [illegible] as long as they could and accepted the resolution of the Brooks [illegible] avoid being voted down.

Why did Mr Hamlin oppose this resolution? Was it because he planned to vote Democrats at the primaries?

Was his attitude such as to indicate confidence in him as a fair, broad-minded, leader, or did it savor of the ward politician who will vote anybody and everybody whether they have a right to vote or not in order to win?

WHAT WAS HAMLIN'S [illegible]

Last things were common gossip in the halls while the sub-committee was drawing up the rules which were subsequently adopted. It was known that the rules proposed by the Hamlin [illegible] and which were thrown out by the committee, made it the easiest thing in the world to vote Democrats. Evidently the plan was to vote a solid Democratic for Hamlin in each precinct, on the pretense that they were going to vote the Republican ticket in the fall election.

After being forced to accept the date for the primaries fixed by the Brooks committeemen at it may be held Saturday night and to accept the other features of their program also Mr Hamlin [illegible] local organ and his Democratic allies in the city announce that he had secured a victory over the Brooks forces. As a matter of fact it was only by the courtesy of their opponents that the all of the dollar-mark candidate were [illegible] humiliation of a division vote which would have put their weakness on record. All he got out of it was a slight change in the phraseology of the resolutions, which had no particular significance one way or the other.

Mr Hamlin may be a statesman in embryo, but he doesn't act the part. His effort to make the primaries so that Democrats could be voted for him smacks of one of the methods of the defunct and discredited "Big Mitt," of Denver.

Inasmuch as Mr Hamlin is unable to spare the time from his pleasures to attend to the duties of his office here, how could he find time to attend to the duties of a Senator in Washington?

Wouldn't Simon and Clarence cut a swath in the social life of Washington though. No pink tea would be complete without their presence but meanwhile who would attend to Colorado's business in the Senate.

Franklin E Brooks is qualified for the Senate by reason of his experience in legislative affairs. He is a [illegible] with the [illegible] direct legislation at Washington, and his untiring devotion to duty. What are Mr Hamlin's qualifications?

The Telegraph expresses the weighty opinion that military drill in the High School should not be compulsory for those who do not care to have their children developed in this way. Really We hadn't heard of a proposal to make the parents drill.

Mr Hamlin's view of it is that the senatorship is the free gift of the people to its recipient.—Colorado Springs Telegraph.

Then what's the fifty-thousand-dollar slush fund for?

TAFT SIGNS

From the New York Globe

Nothing has occurred during the week that indicates that the Taft movement is losing in momentum. On the contrary it seems to be growing. Every day the Hughes boom is spoken of with respect and many more of the delegates from the states in the northern parts of New England have declared themselves for Taft. Many of the delegates who have declared themselves for Taft have not been asked for their opinions. In fact the opposition to Taft that was so much talked of a few weeks ago has not been in evidence. It is generally believed that the Taft boom is growing rapidly and that the talk of his being put forward only to be knocked down is nothing more than a ruse. The Taft boom has run strikingly like that of 1896 when it was another case of the field against an obscure man with the important difference that before the convention was held.

MRS. SARAH DAVIS DIES

PROMINENT PIONEER WOMAN PASSES AWAY.

Came to Manitou Thirty-six Years Ago—Son Was First White Boy Born There.

Mrs. Sarah Davis, aged 70 years, a pioneer of the Pike's Peak region, died last night at 8:30 o'clock at her home, 504 Canon avenue, Manitou, after a lingering illness. She is survived by four daughters and three sons—Mrs. C. H. Barney of Colorado Springs, Mrs. H. G. Carpenter, Miss Lillian Davis, Miss Agnes Davis of Manitou, Colonel W. A. Davis of Colorado Springs, and S. J. Davis of Manitou, the latter being the first white child born in that town. All of the children were at the bedside of their mother with the exception of H. W. Davis, who was in Mexico on business. He is now on his home journey.

The funeral arrangements have not been made, but services conducted by the Rev. B. W. Bonell, rector of St. Andrew's church, will probably be held Sunday afternoon. The remains will be laid to rest in the family lot in Crystal Valley cemetery, beside the husband, Dr. Isaac Davis, who died in 1895 at the age of 73 years.

Mrs. Sarah Davis was born at Lyncombe, near Bath, England, and was married to Dr. Isaac Davis in London. They settled in Manitou 38 years ago. Mrs. Davis, an active Christian worker, organized the first Sunday school in Manitou. The first meeting was in her home and the organization was known as the Union Sunday school. She continued her church work all through her life.

Her husband, Dr. Isaac Davis, is a prominent figure in the history of Manitou. He was actively identified with early enterprises that laid the foundation for making Manitou one of the most noted resorts in the country. He was mayor of the town for several terms and also held the office of coroner of El Paso county. During the civil war he was surgeon in the Union army with Battery D of the New York artillery.

City's Water Rights Are in No Danger Says Mayor.

That the questions involving the water rights of the city of Colorado Springs on Beaver creek and other streams, which were recently considered at a conference of the city officials held at Canon City, will be settled amicably, was the statement made yesterday by Mayor D. N. Heiser. The investigation into the priority of the rights, made by the city officials of Canon City and Colorado Springs jointly, has resulted in clearing up all doubt as to any rights which this city holds. It was thought that these rights might have been endangered by the operations of the Beaver Land and Irrigation company and several other large concerns in the territory along Beaver creek and neighboring streams.

FUNERAL—The funeral of Otto Fehringer will be held this afternoon at 2:30 o'clock from the residence of Adolph Fehringer, 424 North Tejon street. Friends are invited to the house, but the burial will be private. Interment will be in Evergreen cemetery.

TO ENFORCE WATER RULES

Superintendent Verner Says Supply Is Not as Large as Usual.

Rules regulating the use of water in sprinkling lawns and gardens are to be strictly enforced, according to a statement made yesterday by Water Superintendent R. J. Verner. All sprinkling must be done between the hours of 5 and 8 a. m. and 5 and 8 p. m., and nothing larger than a quarter-inch nozzle should be used. Owing to the lack of snow in the mountains, the water supply is expected to be less this season than formerly, unless the snowfall is heavy from now on.

MIDLAND BOOSTS SPRINGS

Advertising This City All Through East and South.

Serial stories descriptive of Colorado Springs are being published in Chicago with views of the city and being published in more than one newspapers of the south and middle west as the result of an aggressive advertising campaign started by the Colorado Midland. Each story places emphasis upon the advantages of Colorado Springs as an all-year-around resort, its unexcelled climate, splendid hotel facilities etc.

More than $50,000 has been appropriated by the Colorado Midland to advertise Colorado Springs this year. George W. Vallery, general manager of the line, who was in the city on a private car yesterday, says that the Colorado Midland has this year inaugurated the most effective advertising campaign in its history. Tens of thousands of beautifully illustrated booklets have been distributed in addition to the serial stories being published in the papers. Advertising contracts have been made with the newspapers in Oklahoma and Kansas, 300 in Missouri, and hundreds of publications in Iowa, Missouri and Nebraska, besides magazines and newspapers in the principal cities of the New England states.

From the fact that this city is a terminal of the line, General Manager Vallery states that the interests of the Colorado Midland and Colorado Springs are identical, and that the road intends to be a leading factor in exploiting this city as the greatest health resort in the country.

FUNERAL.—The funeral of Mrs. C. L. Schellenger will be held this afternoon at 2:30 o'clock from the residence, 515 South Nevada avenue.

BUY FEHRINGER DRUG STORE

Monroe and Freytag Purchase Business on North Tejon.

D. E. Monroe and E. T. Freytag have purchased the drug store formerly owned by Gus Fehringer at 118 North Tejon street. They have taken possession of the business, which will be conducted in the future under the name of the D. E. Monroe and Freytag Drug company.

Mr. Monroe has severed his connection with the D. E. Monroe Drug company and will devote his entire attention to his new business. He has been here in the drug business for the last 21 years, while his partner, Mr. Freytag, is also an experienced druggist, having formerly been a clerk with the Kansas City Drug company and for some time past a member of the Parle Drug company.

Negotiations for the transfer of the business were concluded on Tuesday, the day before Mr. Fehringer died, and at a time when he fully expected to recover. The consideration is not made public.

Boys Charged With Arson to Be Prosecuted to Limit.

Direct informations were filed by Probation Officer W. M. Keagoner, in the district court yesterday, against Herman Grutz, Howard Fleming and Leslie Shaw, the three boys arrested on the charge of setting fire to houses in Glasstown. The boys are all beyond the age limit of the juvenile court, and owing to the aggravated nature of the cases and the length of time during which they carried on their incendiary pranks without detection, the cases against them will be pushed to the limit of the law. Three informations have been filed against Shaw, and one each against the others. The case against young Edwards, the youngest of the gang, will be tried in the juvenile court tomorrow morning.

What the Press Agents Say

"PAINTING THE TOWN."

At the Opera house this evening will be seen the new musical comedy, "Painting the Town," "The Scene on the Roofs," which is one of the midwinter novelties offered by Charles H. Yale in his production of the new musical spectacle, "Painting the Town," which proved to be one of the notable successes of the past season, is one of the funniest concerts ever presented, and a triumph of stage mechanism. It is of the trick or instantaneous change order, which Manager Yale has made so effective in the "Devil's Auction," "Twelve Temptations," "The Evil Eye," and other of this manager's spectacles. The scene preceding this represents the connected dining rooms of the Folie cafe. There occurs the most exciting chase after Hogan and Brogan, the comedy bronios of the play. Their pursuers, the police and citizens, closely press them, when Hogan discovers a fireplace in the room. They agree to climb up the chimney to the roof and disappear up the fireplace. Their pursuers burst in the room; instantly there is total darkness, and as instantly the lights are raised, showing the roof of the cafe. Hogan and Brogan are seen climbing out of the chimney and down to the roof itself. From thence on they are victims to hard luck, realizing that to escape their persecutors they must make a night of it on the roof, they are forced to do so, but are beset by every sort, sort and inconvenience, all of the most laughable order. Finally, after a night of trouble, the police [illegible] the roof, and in the [illegible] Brown fall through the stained glass roof of the cafe to the ground dining room below.

All these musical effects are carried out in full view of the audience, with detailed fidelity, the mechanical working out, from the cafe roof to the roof, being without guest in one of the most novel effects ever offered the theatre going public.

Scene From "Painting the Town," at the Opera House This Evening.

BUSTER BROWN.

Outcault's cartoon comedy, "Buster Brown," which will be the attraction at the Opera house tomorrow, matinee and night, is a spirited entertainment that comprises all that combines to make a play of the musical comedy kind a success. The claim is made that it has an inimitable "Buster" and other funny comedians, excellent singers, graceful dancers, an immense chorus, gorgeous scenery and appropriate and rich costumes. It is promised that the music is tuneful, the comedy clean and original and the ensemble a genuine beauty show. Musical comedies are not remarkable as a rule for their stories, and "Buster Brown" is no exception. However, in its newest form, it has a story that is witty, and it serves its purpose excellently. Catchy compositions of the whistleable sort have been interpolated. The character of "Buster" is still being played by Master Rice, who was selected for the role by its creator, Mr. Outcault, who personally rehearsed him in the part.

Of Master Rice as "Buster," Mr. Outcault says: "He is a perfect representation of what I have attempted to convey to the public through the medium of the cartoons," which [illegible] critics of the cities wherever he has been have given this much of a comfortable praise for his grouping in artistic portrayal of the mischief loving "Buster." The supporting company includes [illegible] Nellie Nichols, Jenny Lotta Gaston, Percy Walling, Beatrice Flint Manno, Goodrich, Lizzie Goodrich, Jack Reef, E. Cecil Allen, Roger Gray, George Yeoman, a chorus of forty, and the celebrated Hughes Musical Trio. Matinee prices: Children, 25 cents, adults, 50 cents.

UNIVERSITY OF COLORADO GLEE AND MANDOLIN CLUBS CONCERT

Tomorrow evening at Perkins hall the University of Colorado Glee and Mandolin clubs will render a very excellent program. Tickets for the concert are on sale at Coburn library, Murray Drug Co. and the Knight-Campbell Music Co. The admission is 75c.

MAGAZINE NOTES.

In its first-of-the-year announcements Lippincott's Magazine promised some big things for the coming twelve-month, and no time is being lost in making good these promises. The March number contains an unusually fine novelette called "Lady Thoroughbred, Kentuckian," by Will Levington Comfort, who seems destined to become one of the few really great latter-day American authors. The story—an unusual one—is replete with action vivid and intense from the start, yet no touch of melodrama is permitted to cheapen it—a fact for which the author is to be congratulated. All the characters are ably drawn—the girl Leila; her doctor lover, Talner; her abductor, Terhune Glossop; her father, the old professor, the professor's wife, a true type of the Kentucky gentlewoman; and the old mystic, Jared Lessing. The portrayal of the last shows that Mr. Comfort has delved deep into occult philosophy, and all who are interested in Christian Science, Mental Science, Theosophy or the New Thought will find herein much to ponder over, much to interest them. A well known literary critic who read this story in manuscript form declared it to be "the best Kentucky romance ever written."

The March Putnam's and The Reader abounds in fiction. Besides "The Coast of Chance" by Esther and Lucia Chamberlain, taken over from the Reader, there is a long story by Howard Overing Sturgis called "On the Pottlecombe Cornice," one of medium length by George Hibbard, "For the Love of [illegible]" and three shorter ones, "The Muse That Woke," with illustrations by the author, Josephine A. Meyer; "Dominion," translated from the Polish by Jeremiah Curtin, and "To Dorking via Paradise," by Gelett Burgess.

The March number of The North American opens with an important article by Baron von Speck-Sternburg, in which the German ambassador announces "The Truth about German Expansion." George v. L. Meyer, postmaster general, pleads "For a Parcels Post." Professor Simon Newcomb discusses the "Prospect of Aerial Navigation." Archibald R. Colquhoun gives "An Englishman's View of the Panama Canal." The Rev. Dr. R. F. Coyle, recently moderator of the Presbyterian [illegible]

[illegible] Conclusion of a Free Trinkets, which appeared in the Herald last October. Sir William Crookes contributes an interesting article on "Radium." PYTHON STUFFED TO BURSTING

Zoo's Curator With Fishpole Saves Life of Thieving Salome.

From the New York World.

Salome, the lady python at the Bronx Zoological gardens, let her appetite run away with her yesterday. Her experience nearly killed her, and she was on the point of exploding when Curator Raymond L. Ditmars saved her life with a fishing pole. Members of beefsteak clubs and gourmands in general will find in her case a pointed moral of the dangers of overfeeding.

Yesterday the quarter-annual feeding day for the five pythons in the zoo. Of these five only two have names—Rex, who is a native of Africa, and is a strapping youngster of 24 feet, and Salome, who comes from sunny India, and has not yet reached the age of 16 feet. The remaining three are blacktailed children, only nine feet old.

Head Keeper Charles Snyder arranged a new meal for the five snakes comfortably sleeping in the reptile cage, some twisted about trees, others coiled gracefully on the sanded floors. The meal consisted of a five-pound rooster, two Belgian hares, two toothsome guinea pigs and a small chicken.

The keeper divided the various edibles in equal portions and placed them about the cage on Wednesday night in such positions that the snakes upon awakening could reach them without even uncoiling. The steam was then turned on so as to give the cage some semblance in temperature to the torridness of their native homes and make them awaken. Snyder then went home.

Yesterday morning when he visited the cage he saw Salome bloated like a balloon. She had made a circuit of the cage and had eaten not only her own, but the portions of her four companions.

Salome had reached the danger point. Her skin began to crack in spots and Mr. Ditmars, putting on his bomb-proof suit, decided to make an effort to save her life before she blew up and wrecked not only herself, but her relatives.

With a long fishing pole he tickled Salome's palate, not in the way the food had tickled it, however, and Miss Python reluctantly, and painfully disgorged the stolen viands.

Fortunately for the lady python the other four snakes are still asleep, or they might have had some remarks to make to her on the subject of food stealing and the wickedness of overeating.

CAPITAL PUNISHMENT

From the Kansas City Times.

In Italy punishment doesn't exist and it has been abolished in the states of Maine, Michigan, Wisconsin, Rhode Island and Kansas. Colorado and Iowa have both restored it after brief periods of abolition. As to the methods of carrying out death sentences: The guillotine is employed publicly in France, Belgium, Denmark, Hanover and two cantons of Switzerland. The gallows is used publicly in Austria, Portugal and Russia; and privately in Great Britain and the United States, except in New York and New Jersey, where the electric chair has been substituted. Death by the sword obtains in 15 cantons in Switzerland, in China and Russia, publicly; while in China strangulation by the cord is used and in Spain the garrote, both public and in Brunswick, death by the ax.

It Does the Business.

Mr. E. E. Chamberlain of Clinton, Maine, says of Bucklen's Arnica Salve, "It does the business. I have used it for piles and it cured them. Used it for chapped hands and it cured them. Applied it to an old sore and it healed it without leaving a scar behind." 25c at all druggists.

DRIFTING TOWARDS BRIGHT'S DISEASE

Many people who are neglecting symptoms of kidney trouble, hoping "it will wear away," are drifting towards Bright's Disease, which is kidney trouble in one of its worst forms.

FOLEY'S KIDNEY CURE

stops irregularities, strengthens the urinary organs and builds up the worn and diseased tissues of the kidneys so they will perform their functions properly. Healthy kidneys strain out the impurities from the blood as it passes through them. Diseased kidneys let the poisonous waste matter is carried by the circulation to every part of the body, causing dizziness, backache, stomach trouble, sluggish liver, irregular heart action, etc.

If you have any signs of Kidney or Bladder Trouble commence taking FOLEY'S KIDNEY CURE at once, as it will cure a slight disorder in a few days and prevent a fatal malady. It is pleasant to take and benefits the whole system.

How to Find Out.

You can easily determine if your kidneys are out of order by setting aside for 24 hours a bottle of the urine passed after arising. If upon examination it is cloudy or milky or has a brick-dust sediment or small particles float about in it, your kidneys are diseased, and FOLEY'S KIDNEY CURE should be taken at once.

G. B. B. [illegible] Two Years.

G. B. Bunham of Carlile's Crater, N. Y., writes: "About two years ago I wrote you telling you I was troubled of a severe kidney [illegible] by using Foley's Kidney Cure. It entirely stopped the [illegible] and symptoms of trouble. [illegible] I have never had a return of any of the symptoms that have troubled me before. [illegible]"

ORE RUNS $5 A POUND

SMALL, RICH STREAK IN BLACK DIAMOND SHOOT.

Good-Sized Vein Being Worked at Approximate Depth of 200 Feet. Ore Sent Out in Sacks.

Special to The Gazette.

CRIPPLE CREEK, March 12.—The Black Diamond property, on the west slope of Tenderfoot hill, is shipping out several cars of ore a week from a good-sized vein which is being worked at an approximate depth of 200 feet. The ore is said to be from five [illegible] returns of one ounce and better. There is a small streak in the shoot which is carrying extremely high-grade values, and, according to reports, is running as high as $5 in gold to the pound.

The rich rock is broken separately and is sacked and taken to the safe deposit vaults until a sufficient quantity is secured to make a shipment by express. The fact that high-grade has been found in this property is being kept a secret, and no information is obtainable from those in charge. However, the story has leaked out.

OLD PROPERTIES OPEN

MOLLIE KATHLEEN IS AMONG THOSE TO RESUME.

Low Shipping and Treatment Charges Make Their Operation Possible. Fair Profits.

Special to The Gazette.

CRIPPLE CREEK, March 12.—Among some of the properties which have recently resumed operations, several of which have been idle for six or seven years, is the Mollie Kathleen, on Tenderfoot hill, just above the El Paso Gold King, the first mine of the camp, which was discovered by Bob Womack. The Mollie Kathleen is now being operated by Lester Pardee, it is having started it on a two-sized ore body at an approximate depth of 500 feet. This ore is of low grade, but owing to the greatly reduced rates in treatment and transportation which have been inaugurated during the past two months, such propositions as the Mollie Kathleen are able to yield a profit to the lessee.

There has been a large amount of money spent on this property in the past. The Woods Investment Company probably put in upwards of $[illegible] trying to locate and cut the big bodies of ore which have been so prolific in the Gold King for the past [illegible] years. The Gold King has been steadily producing ever since Bob Womack first found the gold at the surface, and the grade which it has produced has been wonderful. It is estimated that during all this time the average grade will not fall under two ounces, and [illegible] ounces [illegible] considerably.

INACTIVE KIDNEYS

CAUSE RHEUMATISM AND THIS PRESCRIPTION PROVES IT.

Mix This Recipe at Home, if You Have Any Form of Rheumatism.

Recent hospital reports show that the dread disease, rheumatism, is steadily increasing throughout the country. All kinds of means of relief are being suggested to save the great amount of suffering this winter, especially among those who are not in a position to pay up and visit the noted health resorts in Germany. Recent tests prove conclusively that [illegible] Symptom of kidney trouble, a condition caused by clogged or pores of the eliminative tissues in the kidneys which fail to filter the poisonous waste matter and uric from the blood, permitting these substances to remain in the veins and decompose, usually settling about the joints and muscles, causing the sharp pain, swelling and stiffness of rheumatism.

A well known specialist, who has probably treated more cases of rheumatism than any one else, and who is also the most successful, gives the following simple prescription, which is harmless and inexpensive and so simple that anybody can mix it at home.

The ingredients are: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Go to any good prescription pharmacy and get these three vegetable ingredients and mix them by shaking in a bottle, taking as a dose a teaspoonful after each meal and again at bedtime.

There is nothing better in the world for backache, kidney and bladder trouble, too. Such symptoms as frequent and painful urination, sediment, weakness, general and nervous debility are caused by certain acids and poisonous waste matter decayed tissue, etc., in the blood which the kidneys will clear and purify after a few doses of this prescription.

STOCKS ARE IRREGULAR

STRENGTH IS INTERMITTENT AND SPOTTY.

Volume of Market Decidedly Diminished—Profit Taking Is Much in Evidence.

NEW YORK, March 12.—There was intermittent and spotty strength in the stock market today, but it was not comparable to the aggressive upsweep of prices which occurred yesterday. The volume of the market was decidedly diminished also. The sustaining force of upward movements in special stocks was [illegible] which showed itself on every occasion when an advance was getting fairly under way. Some of the factors which were of use in lifting prices yesterday had lost some of their influence today, and there was a possible of damaging effect coming into from the projects also from some undigested factors.

One of these was the action of the President of the Union Pacific in [illegible] by the bureau of corporations of stock trading with the announced purpose of finding a way to penalize management speculations in stocks. The attitude adopted amongst the stock exchange membership towards this subject is that the stock exchange itself has nothing to fear from a revelation of its methods, but rather much to gain in the demonstration which would be made of safeguarding and securities behind obligations assumed in the regular stock exchange performance and the dominant role of street probity in the conduct of brokerage and commission business in stocks.

There is no disposition in stock market circles to deny the evils of the bucket shop type of operations against which, in fact, stock exchange interests always have waged an incessant warfare. There is a recognition also of the undeniable fact of occasional league manipulation of prices and of gouging with the proceeds of bank loans. But these are evils with the stock exchange members disclaim responsibility for or control power to prevent.

Against this [illegible] market [illegible] stocks last on a [illegible] to the President, [illegible] permission to the [illegible] of corporations to examine their records [illegible] of prosecution against the [illegible] plan for organizing [illegible] corporation [illegible] the stockholders met with effect [illegible] corporation.
